Winchester, TN*

*Race Day Graphics,  
Murfreesboro, TN*

**Richie Keith** of Columbia Tennessee owns and operates a large farm by profession, but is best known as PlowBoy XTREME OFF-ROAD by passion. Richie contacted **LCS** in the summer of 2016 to cover a new 38Ft MAXXD GN trailer he had on order with a tilt tailgate. Richie expressed his need to keep his equipment secure and contained while traveling on

location promoting numerous rock crawling events. The major advantage of a LCS load covering system over a hard side trailer is the ability to have unrestricted side and top loading abilities when those unfortunate mishaps occur on the circuit, which is key in the off-road world. If a machine can be loaded from the side easily versus from the rear end with a

winch, the driver and pit crew saves substantial time and cost. Richie and his graphic designer provided LCS with the ad campaign that would create the billboard advertising for his sponsors on all 3 sides of the cover. **LCS** took it one step further and promoted the fiberglass **Windmaster™** as a great front end promotional opportunity with 3M digital wrap graphics.

**Specialized Utility Trailer Requirements**
